Summary	<p>The AIML department at LoGMIEER, Nashik organized a Expert lecture Artificial intelligence event as part of the Expert lecture. The event was focused on the Artificial intelligence language and aimed to test the coding skills and knowledge of the participants. Participants had to solve coding problems in C without the use of any visual aids or reference materials. This required them to rely solely on their knowledge and understanding of the language. The event was open to students from different colleges and universities across the state.</p> <p>The Artificial intelligence event was a challenging and exciting opportunity for participants to showcase their coding skills and compete with others. It also provided a platform for students to learn from each other and develop their programming abilities. Overall, the Blind Coding event was a successful part of Artificial intelligence and helped promote interest and enthusiasm for programming among students.</p>
