## Department of AIML Engineering

### Activity Report

Title of Program / Activity	Workshop "Internet of Things"
Date & Time	October 14, 2022 from 10:00 am to 05:00 pm
Details of Activity Coordinator	Prof.A.V.Pandit
Name of Expert	Mr.Sujit Tiwari
Program / Activity Objectives	The objective of the workshop on "Internet of Things" is to provide participants with a comprehensive understanding of IoT technologies, applications, and implications. Through hands-on activities and theoretical discussions, attendees will gain proficiency in designing, implementing, and managing IoT systems. The workshop aims to equip participants with the skills and knowledge necessary to leverage IoT solutions in various domains, fostering innovation and problem-solving in the rapidly evolving landscape of connected devices and data.
No. of Participants	34
Summary/Particular	The Workshop on IOT was held on 14th Oct 2022, organized by LoGMIÉER, _Nashik's. The "Internet of Things" workshop offers a deep dive into the realm of interconnected devices, exploring how they revolutionize various industries. Participants delve into the fundamentals of IoT architecture, protocols, and security measures, gaining insights into real-world applications. Through practical demonstrations and case studies, attendees learn to develop IoT solutions tailored to specific needs. The workshop emphasizes the importance of data analytics and machine learning in harnessing the potential of IoT-generated data. By the end, participants emerge equipped with the skills to navigate the complexities of IoT implementation and contribute to the advancement of this transformative technology.
