Summary	<p>The Counter-Strike event was held on March 25th, 2023, as part of the Techfest 2K23 technical event organized by LoGMIEER, Nashik's AIML department. The event attracted participants from different colleges and universities who are passionate about gaming and competition. The competition started at 10:00 AM with an introduction to the rules and regulations by the event coordinators. The event used the latest version of Counter-Strike: Global Offensive (CS:GO), a popular first-person shooter game. The competition was a knockout format, where each team played against another team until only one team remained.</p> <p>The teams consisted of five players each, and the game</p>

was played on a LAN network, ensuring smooth gameplay with minimal lag. The competition featured intense battles, with teams relying on their tactical skills and strategic planning to overcome their opponents. The players displayed excellent coordination and teamwork, which contributed to the excitement and intensity of the competition. The competition lasted for six hours, with 77 teams participating in total. After a series of grueling matches, The winning team received a trophy, certificates, and a cash prize of Rs. 2100.

The event was well-received by the participants and spectators alike, with many praising the organizers for their excellent planning and execution. The event coordinators ensured that the competition ran smoothly, and there were no technical glitches or issues. Overall, the Counter-Strike event at Techfest 2K23 was a resounding success, and the organizers look forward to holding similar events in the future
