

Department of AIML Engineering

Activity Report

Title of Program / Activity	Blind Coding competition
Date & Time	30 st March 2024 from 10:00 am to 05:00 pm
Details of Activity Coordinator	Prof. A. S. Nalge Prof. P. B. Rajole
Program / Activity Objectives	The objective of blind coding is to test the coding skills and knowledge of the participants.
No. of Participants	25
Winner/Runner up	1. Ankit Meshram –Winner 2. Sarvesh Kshatriya – Runner up
Summary	<p>The AIML department at LoGMIEER, Nashik organized a Blind Coding event as part of the state level technical event. The event was focused on the C programming language and aimed to test the coding skills and knowledge of the participants. Participants had to solve coding problems in C without the use of any visual aids or reference materials. This required them to rely solely on their knowledge and understanding of the language. The event was open to students from different colleges and universities across the state.</p> <p>The Blind Coding event was a challenging and exciting opportunity for participants to showcase their coding skills and compete with others. It also provided a platform for students to learn from each other and develop their programming abilities. Overall, the Blind Coding event was a successful and helped promote interest and enthusiasm for programming among students.</p>
